

Senior Account Director/Manager

If you are looking for someone to grow and maintain relationships with clients, bring new clients and add to the mix a dynamic and enthusiastic attitude, then look no further.

I am a very skilled senior account manager with years of experience and relationships within the marketing industry. I not only come with a Go Go Go! attitude, but with great long term relationships in the industry as well as contacts for potential client growth.

I am a problem solver and enjoy a challenge. I have an eye for design and great at not only assisting a client carry out a campaign but getting fully involved in strategic decisions.

With experience working with a wide variety of marketing solutions and have a good understanding of how to manage and market a brand, I am an all rounder in my position. I learn very quickly and am always eager to put my best foot forward.

Having had a spate of "luck" with liquidation, Covid and a few other encounters that can only be deemed as "acts of God" :), please don't judge me too harshly until you meet me. I am looking for a place to call home, grow in, and grow with.

I am available immediately to hit the ground running.
